Issue 3

Welcome to the third issue of the Midland Community Hub Project e-newsletter. You can read the first and second issues on our [website](#).

In this issue we want to update you on our search for a location for the Midland Community Hub:

- We are continuing to work with other government departments to find a building or piece of land for the Midland Community Hub.
- So far we haven't found a suitable option that meets both our requirements and budget, so the search continues.
- We've extended the parameters of the search and are confident that we will find something suitable soon.
- We are looking at both existing buildings and pieces of land on which to build.
- The feedback we received in an online survey last year told us a lot about what the Midland community and local service providers want to see in the Midland Community Hub. This information helped us determine our requirements for the land and property search.

We'll have more information about the location of the Midland Community Hub soon. In the meantime, you can find information on our [website](#) or you can [email](#) the project team.
